## Playing video game can help people release stress

### But there are some *dangers* for over

#### Advantage for playing video game

There are some advantages for playing video games. First, playing video games make me feel happy. I still remember I was so happy when I played video game as I was a child. I could forget something annoying like homework, housework and people I want to kill. Second, playing video games help people make friend with another people. One day I and my friend whose name is Tom playing video games went to an amusement park with new classmates we both first met.

Tom had a chance to talk to new classmates. The four people talk about video games. I completely had no idea what should I do. After days Tom was invited to play video games by new classmates. Third nowadays, people live in a high stress society. One night I broke a box of glasses at company. My boss blamed on me. I felt so sad. Then I went to cybercafé. I played game sh. It let me forget anything.

## There are many disadvantages for students to play video

First, it is harmful for health to spend too much time playing video games. Some children can't eat and sleep regularly because they spend time playing video games. People will be addicted to playing video games so that their eyes will be weary. Some people cause nearsightedness and need to wear glasses. And their body is also not healthy. They can't wake up on time and early. Day after the day their health become very weak. They live like a dead body. For example, recently I saw news on TV that is describing a boy who was a senior high school student. He has been playing video games for day and night and has not been taking a rest. He was dead suddenly in the Internet Café. After that the waiter found a dead body. The service was shocked. And that is reported to the TV and the newspaper. This student spends too much time playing video games, causing great burden on the body. He was addicted to playing video games so that he didn't pay attention to the warning of his body. Finally, the body is very weak so he dead.
